Sorry, one clarification. On 7/2 we hope to reconcile all issues and the plan will move on to HQ for review.

I will keep everyone updated.

Thanks,

Josh

Yep, that is correct. Thank you for clarifying. However, a lot need to happen between now and when I send the plan for your review so these dates may change but I will try to stick to this schedule.

Thanks!

Josh

Thanks Josh. So we understand expectations and can rearrange our schedules if need be, it would be very helpful to outline the dates, especially as people may be out around the July 4 weekend..

If I understand the four day review, it would look as follows:

6/22 – draft released for review to first level reviewers.

6/25 – comments due to you from first level reviewers

6/26 – revised draft released for review to second level reviewers

7/1 – comments due to you from second level reviewers.

7/2 – revised draft released to all reviewers, discuss and review any open issues.

If this isn't what you meant, please let us know.

Subject: Riverside Proposed Plan Review

Hi Everyone,

For the next few weeks we will be moving very fast and I want to let everyone know where we are at with the proposed plan so that you can plan your review.

The proposed plan is expected to be drafted by Monday or Tuesday next week and it will go to the first level reviewers (Chuck, Marian, Kathryn, and Will). After I incorporate their comments I will send it for the second level review (Chloe, Doug, Sarah, and Michael). Each review period will be very short and I hope to incorporate comments relatively quickly in order to stay on schedule for the ROD. So please bring up any significant issues immediately during your review and we can discuss. Also, I will share the online version of the document so everyone will be working/commenting on the same version.

Please plan for a 4 day review period. I would like to turn it around within a week and get it to HQ for review as soon as possible.

Let me know if you have any questions. Thank you for working with me and this crazy schedule.

Thanks,

Josh
